

MAGNETIC GRIDS

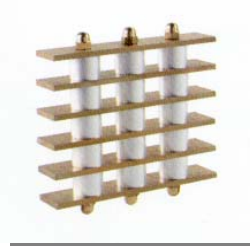

- High quality magnetic grids for material hoppers
- Made in Sweden
- Low cost protection of expensive machinery
- for circular hoppers up to 350mm dia.
- for square hoppers up to 300mm square
- for rectangular hoppers up to 300 x 200mm
- Help prevent expensive downtime
- Enclosed magnets for extra security
- Complete range of sizes

Techspan Round Hopper Magnets

A complete range of high quality Hopper Magnets for all Plastics Processing Machinery.

A wide range of magnet sizes are available in round, square, or rectangular format to suit all sizes of production machines.

Techspan Special Hopper Magnets

REMOVE METAL CONTAMINATION

Techspan high quality high performance Hopper Magnets are designed to remove metal contamination from granules, regrind, powder etc.

Help prevent damage to expensive machinery, screws and barrels.

Help prevent expensive production downtime caused by metal contamination.

Techspan Hopper Magnets are an inexpensive form of insurance against costly repairs.

Using very strong magnets, these Hopper Magnets are designed and manufactured to high specifications suitable for applications such as injection moulding, blow moulding, profile, sheet and

film extrusion machinery.

Metal contamination from granulator blades, even nuts and bolts, and tools, can cause serious damage to tooling, gearpumps, nozzles, screws, hotrunners etc, leading to expensive downtime and high repair costs.

Why take a chance !

An inexpensive Hopper Magnet can give you peace of mind.

Buy 2 or 3 a month until you have all your machines protected. You will never notice the cost, of such a wise investment, which will save you money in the long run!
